

## "SUSANOH" Transparent Red with Black Line with Hard Case

The original body shape is designed by ACE, whom is a Japanese leading guitarist.

ACE named it after Japanese old god "SUSANOH" by the image of the shape. The structures of the body and neck are based on Angelus-ACE, and mounted the original control invented by ACE, which is the professional control pattern to manipulate 3 humbucking pickups.

Special Control

3 humbucking pickups

FRETWIRE: Jumbo Frets  
BODY MATERIAL: Flame Maple Arched Top, Mahogany Back/Ivory Binding  
BRIDGE: Schaller S-FRT II  
NECK PICKUP: Caparison SH-N  
CENTER PICKUP: Caparison SH-N  
BRIDGE PICKUP: Caparison PH-R  
CONTROLS: ACE Original Special Control  
BODY FINISH: Transparent Red with Black Line, HARDWARE: Gold  
STRINGS: Dean Markley Nickel/Steel Light (.009 - .042)  
TUNING: Regular

## Angelus-ACE SE Transparent Red with Black Line with Hard Case Angelus-ACE SE Transparent White with Black Line with Hard Case

The debut of the Angelus-ACE SE was introduced after much development time with ACE.

Angelus-ACE is completed with ACE's needs and requirements based on Angelus.

The body back has no shave as minimized process the whole body as far as the sound of resonance are concerned.

Schaller's FRT bridge does not move the direction to bring up the strings tension to make stability unless you bring down the tremolo arm.

That dedicates for the body vibration. The structure well works for the sound of resonance.

Split coil switches are utilized for each pickup to help make a wide range of sounds, and the two volume controls allow for subtle adjustments.

The Beautiful 'Prayer' inlays are the signatures of Angelus-ACE.
