

Among the Caparison Guitar products it is a standard guitar with 24 frets and bolt on neck. With Pro.Trans.Dark Rose and Pro.Black finish, 2007 model has shifted to lower range sound and heavier Image. Both Dellinger and Dellinger II have the push-push switch control that splits the coil immediately between the bridge pickup and neck pickup as well as adjustment of the tone control. This can truly deliver wide ranged sounds for musical diversities.
